

## Mary DuPrie Studios

### Executive and Business Shoots

Coming from a set stylist/artist background my studio is like no other in Metro Detroit. A 3,400sq. ft. studio with great custom backgrounds at my disposal. Most backgrounds have been custom made or painted by myself. The variety of the studio truly gives you a custom look for your new portrait. My images fall into the portrait category versus headshots, although it can be cropped into a headshot.

Shooting digitally for the past ten years allows us to get a high percentage of keepers and time for you to warm up. Connected to a screen while shooting in the studio allows the two of us to scrutinize what we like and what we need to keep an eye on.

A great deal of time is spent finessing the image that best represents you to your industry. Custom high end enhancing and retouching is included to represent your best "self".

Make sure your head shot stands out and represents that you are already a "part" of your industry.

Pricing starts with head and shoulder "headshots". If you need formal portraits, 3/4 or full body images I would be happy to quote based on your needs. Certain shoots will fall into the commercial category.

**Executive, Business, Realtor  
Head Shots**  
**Classic studio background starting at \$325**  
**Sample below**
