

Mary DuPrié Studios

GLAMOUR COUTURE

Thank you so much for inquiring about my photography services. I run a full time commercial/model photography studio. My photography is geared to the modeling, commercial, magazine world. I offer custom sets and backgrounds and generally offer one of a kind images.

Some images will never be available again and will not be duplicated for various reasons. I do not run a portrait type studio that offers “generic” backgrounds to all my clients. Pricing will be based on the complexity of the lighting and setups.

Because of this it is hard to price shoots and there is no “one way” of doing something. I can only guess as to what you might be looking for. Some setups can require the use of studio assistants. The image on the left needed an assistant to run the fog machine!

My prices are a starting point for some shoots. Having inspiration images to send me can certainly help with the pricing process. As “you” are part of the artistic process and your wardrobe can really set the tone. *How do you dream of being photographed...*

Prints
