## *Natural Childrens Pageant Sessions*

Coming from a set stylist/artist background my studio is like no other in Metro Detroit. A 3,700 sq. ft. studio with great custom backgrounds at my disposal. Most backgrounds have been custom made or painted by myself. The variety of the studio can truly give you a custom look for your new portraits. Sessions are custom based on your wardrobe.

Shooting digitally for the past seven years allows us to get a high percentage of keepers and time for you to warm up. Connected to a screen while shooting in the studio allows the two of us to scrutinize what we like and what we need to work on.

A great deal of time is spent finessing the image that best represents you to your industry. Custom high end enhancing and retouching is included to represent your best "self".

Make sure your head shot stands out and represents that you are already a "part" of your industry.
