

Mary DuPrie Studios

Social Media Beauty/Opera Headshots

Coming from a set stylist/artist background my studio is like no other in Metro Detroit. A 3,700 sq. ft. studio with great custom backgrounds at my disposal. Most backgrounds have been custom made or painted by myself. The variety of the studio truly gives you a custom look for your new portrait. My images fall into the portrait category versus headshots, although it can be cropped into a headshot. Setups and backgrounds are set up according to the wardrobe you bring in. No two shoots are alike.

Shooting digitally for the past seven years allows us to get a high percentage of keepers and time for you to warm up. Connected to a screen while shooting in the studio allows the two of us to scrutinize what we like and what we need to work on.

A great deal of time is spent finessing the image that best represents you to your industry. Custom high end enhancing and retouching is included to represent your best "self".

Make sure your head shot stands out and represents that you are already a "part" of your industry.
