

Mary DuPrie Studios

Actors - Social Media - Personal Headshots

Coming from a set stylist/artist background my studio is like no other in Metro Detroit. The studio is bright New York Loft Style with 100 ft. of fabulous North East window light. The variety and large size of the studio truly gives you a custom look for your new industry head shots.

As an early adaptor of digital workflow it allows us to get a high percentage of keepers and time for you to warm up. Connected to a screen while shooting in the studio allows the two of us to scrutinize what we like and what we need to work on.

A great deal of time is spent finessing the image that best represents you to the industry. The retouching and enhancing is done to make you look crisp and sparkly versus overly or "underly" retouched.

I have shot many images of actors just starting out and also revitalized many seasoned actors careers with fabulous new head shots. If yours is black and white you need a new one! The competition is fierce but with great new head shots you'll be able to stand out from the crowd.

Make sure your head shot stands out and represents that you are already a "part" of the industry.

The information below is specifically for actors headshots.
