## *The Investment*

Approximately two weeks after your photo shoot we will sit down and do an in studio viewing and ordering session. We ask that you give us 3-5 weeks from your session date to complete your order. Please keep this in mind when booking the date of your session.

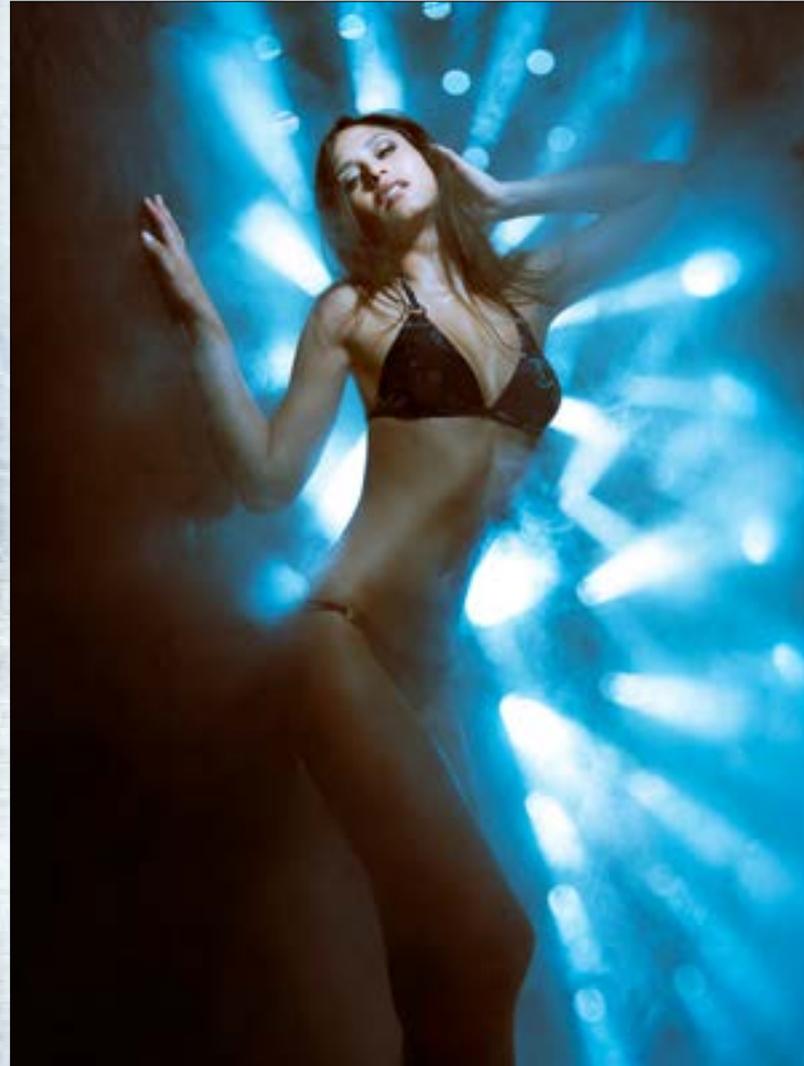

Boudoir sessions range in price, and truly depend on how you would like to display your images. For every package your portraits will be produced as a gorgeous collection of images of you looking beautiful, sexy and seductive.

Gift Certificates are available. The perfect gift for any man to give to his bride, wife or girlfriend! An intimate session is also a perfect gift to give the bride-to-be or a unique present for anyone, anytime.

Session and set ups will be photographer driven. My setups are ever evolving and custom. Props are coming and going out of the studio all the time. What you see today might not be available tomorrow.

### *What is Intimate Photography ?*

*I*ntimate portraiture has been gaining immense popularity in recent years. As women, we spend endless amounts of time and money pampering ourselves with beauty products and services, clothing, accessories, fitness and even plastic surgery to make us feel beautiful. By investing in portraiture of ourselves, we can capture and document our beauty to treasure for a lifetime.

Regardless of age or body type, we specialize in offering all women an incredible opportunity to commission their own personal collection of stunning, modern boudoir portraits. Flattering your best features, Mary DuPrie Studios provides you with something truly unique to show how beautiful you are. While our sessions are designed to create a personal, romantic gift for your significant other to cherish for a lifetime, they are truly designed for you.

## *Do you provide hair and makeup services ?*

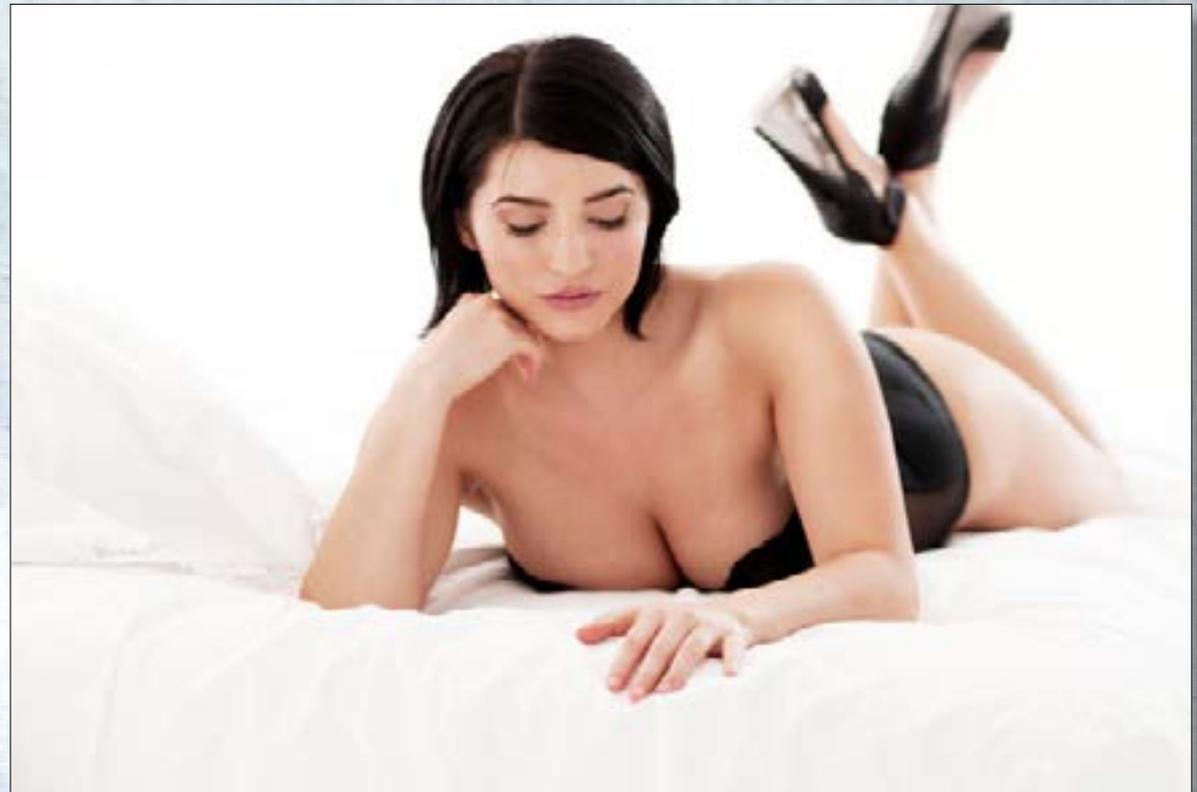

Yes we do. You can choose to purchase both hair and makeup services. We strongly encourage having both done by professionals - it really makes a difference in the final images. A makeup artist is required for certain shoots.

## *I'm a little uncomfortable about nudity*

Nudity is certainly not necessary and we will not push you to go further than you feel comfortable with. Sexy isn't always about how much you show, it's all about how you show it ! Most men feel that leaving something to the imagination is much sexier than baring it all.

## *Sounds great ... but I'm feeling nervous about my shoot!*

Feeling nervous or self conscious about having an intimate session ? There's no need worry, it's natural to feel this way. We guide you through each pose and know exactly which angles to capture for all body types to make you look like the beautiful woman you are. Our sessions are designed to allow plenty of time to relax and feel comfortable which really shows in the final images. So leave everything up to us...

just relax and enjoy yourself !

*I've had my session - what a blast ! When do I get to see my images?*

We will schedule an in studio viewing session two to three weeks after your shoot.

*How many images  
will  
I have to choose  
from ?*

Many images are captured during your session. Afterwards, each image is put through a careful selection process. You will see only the images that meet the standards of Mary DuPrie Studios.

Images that do not meet these standards are removed permanently during the selection process.

*Will my session be with a female photographer ?*

Yes ! With such personal portraits it is reassuring for both you and the man in your life that Mary DuPrie Studios is an all female team including the makeup artist, photographer, assistant and retouch artist.

*I have a little problem area that I don't like about my body - is there anything you can do?*

Regardless of age or body type, we specialize in offering all women an incredible opportunity to commission their own personal collection of stunning, modern boudoir portraits. Flattering your best features, Mary DuPrie Studios provides you with something truly unique to show how beautiful you are. Every woman is very different and has something incredible to capture.

Our advanced retouching includes skin perfecting, body contouring and feature enhancement. Every detail is covered from wrinkles to acne, scars, cellulite and stretch marks. You don't have to worry about these little imperfections. We have everything covered.

Our advanced posing techniques are designed to emphasize the positives and disguise problem areas. In addition we can perform a little "digital liposuction" in the retouching stage. We will not however completely change the shape of your body – after all that just wouldn't be you !

*What should I bring to my Shoot?  
Do you supply wardrobe?*

I'm sorry we are not able to supply wardrobe but have some great suggestions on what to purchase and bring with you. Please bring a variety of lingerie, shoes and jewelry. We will work with you to create the look you want. When you are choosing lingerie, consider choosing more than one set to get a variety of looks.

Lingerie can include bra and panty sets, a corset, teddy, chemise, camisole, garters, thigh high stockings and robes. While black is the standard in sexy, all colors are great and give a nice variety of looks to your final images.

Other items to bring include a variety of high heels, high boots, jewelry, scarves, hats, ties. Feel free to bring anything with you to accessorize your shoot and make it a more personalized experience. A piece of your mate's favorite apparel – shirt and tie perhaps or a sports jersey – he'll love it !

*I'd love to give a session as a gift. Can I do that ?*

Certainly !  
Gift Certificates are available for session fees and/or products.
